# EXAM FEEDBACK

Please help your fellow students with whatever feedback on your exams that you can remember. Be as specific as you can about the wording of any questions and answers we did not cover. You do not have to recall the entire wording — whatever you can remember will help. However, mentioning general subjects is not as helpful (e.g., “There was a question on ladders”). It’s the wording of the questions and answers that is most important. For example: “What’s the tallest ladder allowed by Cal/OSHA?

- A. 25 ft
- B. 44 ft
- C. ??
- D. ??”

Also, please indicate which answer you chose.
