

EXCAVATION & GRADING

Excavation & Grading Handbook, Revised, by Nicholas Capachi is an essential part of the following courses:

- Earthwork and Paving (C-12)
- Pipeline (C-34)
- Sanitation Systems (C-42)

The Excavation & Grading lecture is included in the Audio Home Study Kits and Video Home Study Kits for these trades and the students should follow along with a copy of the *Handbook*.

The *Handbook* is also recommended for General Engineering (A) students who do not have excavation, grading, and paving experience and are unfamiliar with the subject area. The Excavation & Grading lectures are **not** automatically included in the General Engineering (A) Kits. If you order a General Engineering (A) Kit, please indicate whether you require the Excavation & Grading lecture be included.

Remember, *Excavation & Grading Handbook, Revised* is a primary source for the C-12, C-34, and C-42 State exams and our materials are written with the assumption that students will have a copy.
