

# EXCAVATION & GRADING

*Excavation & Grading Handbook, Revised*, by Nicholas Capachi is an essential part of the following courses:

- Earthwork and Paving (C-12)
- Pipeline (C-34)
- Sanitation Systems (C-42)

and is also recommended for General Engineering (A) students who do not have excavation, grading, and paving experience and are unfamiliar with the subject area.

The *Handbook* and the accompanying Excavation and Grading lecture contain vital information for passing the State exam.

**Remember, *Excavation & Grading Handbook, Revised* is a primary source for these State exams and our materials are written with the assumption that students will have a copy.**
